## ASSETS

As of 31.12.2013 the book value of the assets of CCB Plc is BGN 3,745,233 thousand. Compared to the same period of last year the book value of assets increases by BGN 395,782 thousand or by 11.82%.

### **Structure of the assets**

Cash and balances with BNB are 24.85% of total assets as of 31.12.2013, compared to 26.02% a year earlier. Funds with banks, correspondent accounts and short-term deposits have a weight of 7.84% of total assets, compared to 5.48% a year earlier. Investments in securities, including government securities, corporate bonds, shares and compensation instruments, which are instruments for improving the profitability of the Bank, are 13.31% of total assets, compared to 13.44% for 2012. As at 31.12.2013 the amount of loans and advances is 47.31% of total assets. Provisions are 1.55% of loans and advances to customers. In 2012 the amount of loans and advances is 47.48% of total assets, and provisions are 1.68%. In 2013 impairment for uncollectibility increased reaching the amount of BGN 27,650 thousand.

According to the type of currency, the granted gross loans and advances to customers as at 31.12.2013 are: 53.02% in BGN, and 46.98% are in foreign currency; according to the type of the client: 87.36% are loans to companies, and 12.64% are loans to individuals.

The quality of the loan portfolio is very good – the regular exposures have a share of 95.42%, and the non-performing exposures have a share of 0.96%.

Non-current assets have a share of 2.19% of total assets.

### **LIABILITIES**

As at 31.12.2013 the total liabilities of CCB Plc are BGN 3,388,914 thousand. They are approximately 90.49% of total liabilities. The increase for the year is 12.88%.

### **Structure of the liabilities**

The Bank maintains a stable structure of attracted funds, which does not make it dependent on external financing.

The main source of attracted funds for CCB Plc are the funds attracted from individuals, companies and other depositors, at the amount of BGN 3,278,227 thousand at the end of 2013. Their share in the total liabilities of the Bank is 96.73%. The funds attracted from financial institutions in the form of deposits and loans are 0.68% of total liabilities.

The shareholders' equity of the Bank is at the amount of BGN 356,319 thousand.

The increase in shareholders' equity compared to 2012 is by 2.62% and is the result of the accumulated year profit and reserves.

### **FINANCIAL REVIEW**

As at 31.12.2013 the audited financial result of CCB Plc is a net profit to the amount of BGN 10,145 thousand. In 2012 the Bank realized an audited net profit at the amount of BGN 10,086 thousand.

The net interest income for 2013 amounts to BGN 54,612 thousand, compared to BGN 52,071 thousand for 2012. The net fees and commission income, realized by the Bank in 2013, reached BGN 33,010 thousand, compared to BGN 30,784 thousand a year earlier.

The operating expenses for 2013 increase by 3.62 % compared to their amount at the end of 2012 and have reached BGN 106,068 thousand. The staff expenses are 29.42% of these expenses and retain their share from a year earlier. The administrative and other expenses of the Bank reach BGN 64,691 thousand, compared to BGN 60,049 thousand a year earlier.

## MAIN RISKS

The risk is associated with the possibility that the actual income from a given investment differs from the expected income. The specifics of banking necessitate the application of adequate systems for timely identification and management of different types of risk. Of special significance are the risk management procedures, the mechanisms for maintaining risk in acceptable limits, via an evaluation of the external and internal environment, the optimum liquidity, the portfolio diversification and the profitability of operations. In its risk management activity CCB Plc applies Basel III with the principally new requirements for managing credit risk and the capital coverage of operational risk.

Credit risk is the probability of a loss, due to the impossibility of the counterparty to perform on time or not to perform at all their obligations. The Bank manages credit risk characteristic of the banking and the trading portfolios. The Bank applies individual credit policies with regard to distinct business segments.

In order to limit its exposure to credit risk the Bank has implemented a system of limits by classes of exposures, business sectors, geographic regions, client profile and groups of clients, bearing general risk. The limits determine the risk appetite and the risk tolerance to credit risk and the planned allocation of the capital, necessary for the risk coverage.

For reduction of credit risk collateral and guarantees are accepted, appropriate in type and value, according to the Internal rules, the applied approach for the calculation of the capital requirements and the applicable banking legislation.

Every month the Bank evaluates the risk exposure, arising from the loan portfolio, classifying and making provisions for the loans in the portfolio according to the requirements of IFRS. The big loan exposures according to Ordinance № 7 of BNB are subject to constant supervision and reporting.

Liquidity risk is the probability of difficulties in payments due to a time mismatch between the incoming and outgoing cash flows. The Bank manages its assets and liabilities in a manner, which ensures that it may perform its daily obligations regularly and without any delay, in the normal bank environment and in times of crisis.

Market risk is the probability of occurrence of a loss for the Bank as a result of unfavorable changes in foreign exchange rates, market prices and interest rates.

Operational risk is the probability of direct or indirect losses as a result of inadequate functioning or interruption in internal processes, systems and personnel of the Bank.

Risk management at CCB Plc is subjected to the principle of centralization and has been structured according to the competence levels as follows:

1. Management Board – determines the acceptable levels of risk for the Bank within the adopted strategy for development.
2. Specialized collective authorities – affirm the limits and parameters of the Bank’s activity concerning risk management:
  - Committee for managing assets and liabilities;
  - Credit Council;
  - Committee for Supervision, Evaluation, Classification and Reclassification of the Risk Exposures (CSECRRE).
3. Executive Directors and Procurator – control the process of approving and applying adequate policies and procedures within the strategy for risk management, adopted by the Bank;
4. Risk Analysis and Management Division – carries out in an operative manner the activity associated with measuring, monitoring, management and control of the risks.

#### **INDICATORS OF RISK, SOLVENCY AND PROFITABILITY as at 31.12.2013**

- Regular exposures (Ordinance № 9 of BNB) – 96.15%;
- Non-performing exposures (Ordinance № 9 of BNB) – 0.81%;
- Coefficient of liquid assets (Ordinance № 11 of BNB) – 37.26%;
- Share capital – BGN 113,154 thousand

#### **CREDIT RATING**

In December 2013 the Bulgarian Credit Rating Agency confirmed the rating, awarded to Central Cooperative Bank Plc, whereas the long-term rating is **BBB-** and short-term rating **A-3**.

**The Bank has a credit rating as specified below:**

Long-term credit ratings: **BBB-**

Outlook: **stable**

Short-term rating: **A-3**

#### **Point 2:**

After the date of preparation of the annual individual financial statements for 2013, no events have occurred, which have a significant impact on the future development of the Bank.

#### **Point 3:**

In 2014 CCB Plc will continue to follow its development plan. The main emphasis will be the offering of bank services to the population – consumer and mortgage loans, bank cards and the associated services, e-banking and payment services. At the same time, the Bank will develop bank services to corporate clients and SMEs and the relevant programs for utilization of funds from the EU structural funds.

#### **Point 4:**

CCB Plc does not deploy research and development.

**Point 5:**

In 2013 CCB Plc has not acquired and/or transferred own shares. As at 31.12.2013, CCB Plc has 11 own shares at a nominal value of BGN 1 each, which is 0.0000097 % of the capital of the Bank.

The remuneration paid in 2013, to the physical entities members of the Supervisory Board /SB/ is to the amount of BGN 120,000.

The remuneration, paid in 2013, to the legal entities members of the Supervisory Board is to the amount of BGN 72,000.

The remuneration, paid in 2013, to the member of the Management Board /MB/, is to the amount of BGN 322,533.

As at 31.12.2013, Sava Marinov Stoynov, Executive Director and a member of the Management Board of CCB Plc has 3,436 shares, which is 0,003% of the capital of the Bank.

The members of the Boards of CCB Plc do not have additional rights for the acquisition of shares and/or bonds of the Bank.

In 2013 there are no concluded contracts between CCB Plc and the members of its boards or persons, related to them, which go beyond the ordinary activity of the Bank or considerably deviate from the market conditions.

**Tsvetanka Donkova Krumova** – Member of the Management Board of Central Cooperative Bank Plc

*She does not own directly more than 25 % of the capital of other commercial companies.*

*She participates in the management of other commercial companies or cooperatives as a procurator, a manager or a board member:* Member of the MB and Executive Director of “Armeec” insurance company JSC, UIC 121076907; Member of the MB of “CCB” AD, UIC 831447150, “CCB SILA” pension fund JSC, UIC 825240908; Member of the BD of ZAO AKB “Tatinvestbank”, INN 1653005038, Russian Federation, Republic of Tatarstan, the town of Kazan; Member of the BD of OAO SK “Itil”, INN 1656000493, Russian Federation, Republic of Tatarstan, the town of Kazan;

We are not aware of any contracts, concluded between CCB Plc and members of its boards or any related parties, which go beyond the ordinary activity of the Bank or significantly deviate from the market conditions.

A program for training and development of staff within CCB Plc was adopted with a budget of BGN 200,000.

**Point 6:**

As at 31.12.2013 the activities of the Bank are performed via a head-office in Sofia, Bulgaria, 49 branches and 221 bank offices in Bulgaria and 1 branch in the Republic of Cyprus.

**Point 7:**

The financial instruments, possessed by the CCB Plc, as of 31.12.2013 are: government securities, corporate bonds, shares, shares in mutual funds and compensatory notes to the total amount of BGN 498,322 thousand and are securities and derivatives for trading, financial assets available for sale and financial assets held to maturity.

The Bank has government bonds of the Republic of Bulgaria and other governments of the EU at the total amount of BGN 244,956 thousand; corporate bonds of Bulgarian and foreign companies at the amount of BGN 158,483 thousand and BGN 50,031 thousand, respectively; equity instruments such as shares in companies and mutual funds at the total amount of BGN 27,828 thousand.

The Bank does not consider that there is a significant credit risk, concerning the instruments of the Republic of Bulgaria. The greater part of these instruments has a fixed interest rate and the change in the market interest rates does not reflect the interest income from these instruments.

The corporate bonds of Bulgarian issuers are exposed to credit risk, associated with the ability of the issuers to perform their obligations. The risk amount is up to the total amount of held securities. The greater part of those securities has a fixed interest rate and is exposed to a decrease in value upon an increase in the market interest rates.

The equity instruments, possessed by the Bank, are subject to price risk to the amount of the total value of held securities. The majority of these securities are traded on the Bulgarian Stock Exchange. As far as the indices of the stock exchanges are volatile, there may be losses as a result of a decrease in the prices of shares traded on the stock exchange and negative evaluations of the equity instruments, possessed by the Bank.

The Group's exposures in derivative financial instruments are presented at fair value and represent transactions for purchase and sale of currency, securities, forward contracts and currency swaps on the open market. The major part of them is positions of the Bank clients, associated with purchase and sale of currency and the associated transactions, effected by the Bank. The traded at own expense speculative positions of the Bank in derivate instruments are below 10% of the total fair value of the derivative financial instruments, are not significant and the Bank is not exposed to significant risks, stemming from those instruments.

From the point of view of the nature of the business of the CCB Plc, other significant factors do not have an impact on the evaluation of assets, liabilities, financial state and the result of the Bank.

**INDEPENDENT AUDITOR'S REPORT AND  
ANNUAL SEPARATE FINANCIAL STATEMENTS  
DECEMBER 31, 2013**

*This document is a translation of the original in Bulgarian text,  
in case of divergence the Bulgarian text shall prevail.*

## INDEPENDENT AUDITOR'S REPORT

**To the Shareholders of  
Central Cooperative Bank AD**

### **Report on the separate financial statements**

We have audited the accompanying separate financial statements of Central Cooperative Bank AD (“the Bank”), which comprise the separate statement of financial position as of December 31, 2013, and the separate statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### *Management's responsibility for the separate financial statements*

Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's responsibility*

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate financial statements.

Делойт се отнася към едно или повече дружества - членове на Делойт Туш Томацу Лимитид, частно дружество с ограничена отговорност (private company limited by guarantee), регистрирано в Обединеното кралство, както и към мрежата от дружества - членове, всяко от които е юридически самостоятелно и независимо лице. За детайлна информация относно правната структура на Делойт Туш Томацу Лимитид и дружествата - членове, моля посетете [www.deloitte.com/bg/za\\_nas](http://www.deloitte.com/bg/za_nas).

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee and its network of member firms, each of which is a legally separate and independent entity. Please see [www.deloitte.com/bg/about](http://www.deloitte.com/bg/about) for a detailed description of the legal structure of Deloitte Touche Tohmatsu Limited and its member firms.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the separate financial statements present fairly, in all material respects, the financial position of Bank as of December 31, 2013, and of its financial performance and its cash flows for the year then ended in accordance with IFRS, as adopted by the European Union.

**Other reports on legal and regulatory requirements - Annual separate report on the activities of the Bank according to article 33 of the Accountancy Act**

Pursuant to the requirements of the Bulgarian Accountancy Act, article 38, paragraph 4 we have read the accompanying Annual separate report on the activities of the Bank prepared by the Bank's management. The Annual separate report on the activities of the Bank is not a part of the separate financial statements. The historical financial information presented in the Annual separate report on the activities of the Bank prepared by the management is consistent, in all material aspects with the financial information disclosed in the separate financial statements of the Bank as of December 31, 2013, prepared in accordance with IFRS, as adopted by the European Union. Management is responsible for the preparation of the Annual separate report on the activities of the Bank dated March 28, 2014.

## CENTRAL COOPERATIVE BANK AD

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

#### 1. OPERATING POLICY

Central Cooperative Bank AD, Sofia (the "Bank") was established in 1991. The Bank's activities and operations are governed by the Law on Banks and the regulations issued by the Bulgarian National Bank ("BNB"). The Bank currently operates under a banking license granted by BNB, pursuant to which it may accept deposits in local and foreign currency, extend loans in local and foreign currency, open and maintain nostro accounts in foreign currency abroad, deal with securities and foreign currency and perform all other banking activities and transactions, permitted by the Law on Credit Institutions.

In December 2005 the Bank obtained a bank license, issued by the Central Bank of Cyprus, under which the Bank is authorized to perform bank activity as a legally licensed bank branch on the territory of the Republic of Cyprus, in compliance with the requirements of the Cyprus Law on Banks. The Bank started its banking activity on the territory of Cyprus in 2007.

The Bank is a public entity and is listed on the Bulgarian Stock Exchange, Sofia. The Bank is a member of the European Association of Cooperative Banks. The Bank has a primary dealer status for transactions with Bulgarian government securities.

As of 31 December 2013 the Bank's operations are conducted through a head-office located in Sofia, Bulgaria, 49 branches and 221 remote offices throughout the country and 1 branch in the Republic of Cyprus.

#### 2. BASIS FOR THE PREPARATION OF THE SEPARATE FINANCIAL STATEMENTS

##### General framework for financial reporting

These financial statements are separate financial statements prepared for the year ended 31 December 2013. The amounts in the separate financial statements are stated in thousand Bulgarian levs (BGN'000).

These separate financial statements have been prepared for general purposes under the going concern principle. The separate financial statements have been prepared, in all material respects, in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), and the interpretations, issued by the International Financial Reporting Interpretations Committee (IFRIC), approved by the European Union (the "EU") and applicable in the Republic of Bulgaria.

The Bank owns over 50% of the subsidiaries Central Cooperative Bank AD Skopje, the Republic of Macedonia and CCB Assets Management EAD, Sofia, Bulgaria. In accordance with the requirements of IAS 27 „Consolidated and separate financial statements,” the Bank prepares also consolidated financial statements. The consolidated financial statements will be issued in April 2014.

The separate financial statements are prepared under the historical cost convention, modified by the revaluation to fair value of financial assets and liabilities held for trading, available for sale and all derivative contracts. Loans and receivables, and financial assets held to maturity are carried at amortized cost.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**2. BASIS FOR THE PREPARATION OF THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)**

**Changes in IFRS**

*Standards and Interpretations effective in the current period*

The following standards, amendments to the existing standards and interpretations issued by the International Accounting Standards Board (IASB) and adopted by the EU are effective for the current period:

- IFRS 13 “Fair Value Measurement”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to IFRS 1 “First-time Adoption of IFRS” – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to IFRS 1 “First-time Adoption of IFRS” – Government Loans, adopted by the EU on March 4, 2013 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to IFRS 7 “Financial Instruments: Disclosures” - Offsetting Financial Assets and Financial Liabilities, adopted by the EU on December 13, 2012 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to IAS 1 “Presentation of financial statements” – Presentation of Items of Other Comprehensive Income, adopted by the EU on June 5, 2012 (effective for annual periods beginning on or after July 1, 2012),
- Amendments to IAS 12 “Income Taxes” – Deferred Tax: Recovery of Underlying Assets, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to IAS 19 “Employee Benefits” – Improvements to the Accounting for Post-employment Benefits, adopted by the EU on June 5, 2012 (effective for annual periods beginning on or after January 1, 2013),
- Amendments to various standards “Improvements to IFRSs (cycle 2009-2011)” resulting from the annual improvement project of IFRS (IFRS 1, IAS 1, IAS 16, IAS 32, IAS 34) primarily with a view to removing inconsistencies and clarifying wording, adopted by the EU on March 27, 2013 (amendments are to be applied for annual periods beginning on or after January 1, 2013),
- IFRIC 20 “Stripping Costs in the Production Phase of a Surface Mine”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2013).

The adoption of these amendments to the existing standards has not led to any changes in the Bank’s accounting policies.

*Standards and Interpretations issued by IASB and adopted by the EU but not yet effective*

At the date of authorisation of these financial statements the following standards, amendments to the existing standards and interpretations issued by IASB and adopted by the EU were in issue but not yet effective:

- IFRS 10 “Consolidated Financial Statements”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2014),
- IFRS 11 “Joint Arrangements”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2014),

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**2. BASIS FOR THE PREPARATION OF THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)**

**Changes in IFRS (continued)**

*Standards and Interpretations issued by IASB and adopted by the EU but not yet effective (continued)*

- IFRS 11 “Joint Arrangements” adopted by the EU on December 11 2012 (effective for annual periods beginning on or after January 1, 2014)
- IFRS 12 “Disclosures of Interests in Other Entities”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2014),
- IAS 27 (revised in 2011) “Separate Financial Statements”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2014),
- IAS 28 (revised in 2011) “Investments in Associates and Joint Ventures”, adopted by the EU on December 11, 2012 (effective for annual periods beginning on or after January 1, 2014),
- Amendments to IFRS 10 “Consolidated Financial Statements”, IFRS 11 “Joint Arrangements” and IFRS 12 “Disclosures of Interests in Other Entities” – Transition Guidance, adopted by the EU on April 4, 2013 (effective for annual periods beginning on or after January 1, 2014),
- Amendments to IFRS 10 “Consolidated Financial Statements”, IFRS 12 “Disclosures of Interests in Other Entities” and IAS 27 (revised in 2011) “Separate Financial Statements” – Investment Entities, adopted by the EU on November 20, 2013 (effective for annual periods beginning on or after January 1, 2014),
- Amendments to IAS 32 “Financial instruments: presentation” – Offsetting Financial Assets and Financial Liabilities, adopted by the EU on December 13, 2012 (effective for annual periods beginning on or after January 1, 2014),
- Amendments to IAS 36 “Impairment of assets” - Recoverable Amount Disclosures for Non-Financial Assets, adopted by the EU on December 19, 2013 (effective for annual periods beginning on or after January 1, 2014),
- Amendments to IAS 39 “Financial Instruments: Recognition and Measurement” – Novation of Derivatives and Continuation of Hedge Accounting, adopted by the EU on December 19, 2013 (effective for annual periods beginning on or after January 1, 2014).

*Standards and Interpretations issued by IASB but not yet adopted by the EU*

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except from the following standards, amendments to the existing standards and interpretations, which were not endorsed for use in EU as at the date of approval of these separate financial statements:

- IFRS 9 “Financial Instruments” and subsequent amendments (effective date was not yet determined),
- Amendments to IAS 19 “Employee Benefits” - Defined Benefit Plans: Employee Contributions (effective for annual periods beginning on or after July 1, 2014),
- Amendments to various standards “Improvements to IFRSs (cycle 2010-2012)” resulting from the annual improvement project of IFRS (IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16, IAS 24 and IAS 38) primarily with a view to removing inconsistencies and clarifying wording (amendments are to be applied for annual periods beginning on or after July 1, 2014),

## **2. BASIS FOR THE PREPARATION OF THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)**

### **Changes in IFRS (continued)**

#### ***Standards and Interpretations issued by IASB but not yet adopted by the EU (continued)***

- Amendments to various standards “Improvements to IFRSs (cycle 2011-2013)” resulting from the annual improvement project of IFRS (IFRS 1, IFRS 3, IFRS 13 and IAS 40) primarily with a view to removing inconsistencies and clarifying wording (amendments are to be applied for annual periods beginning on or after July 1, 2014),
- IFRIC 21 “Levies” (effective for annual periods beginning on or after January 1, 2014).

The Bank anticipates that the adoption of these standards, amendments to the existing standards and interpretations will have no material impact on the separate financial statements in the period of initial application, except for the one noted below which might have material effect on the financial statements:

- IFRS 9 Financial Instruments uses a single approach to determine whether a financial asset is measured at amortised cost or fair value, replacing the many different rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments (its business model) and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the many different impairment methods in IAS 39.

At the same time, hedge accounting regarding the portfolio of financial assets and liabilities, whose principles have not been adopted by the EU, is still unregulated.

According to the Bank’s estimates, application of hedge accounting for the portfolio of financial assets or liabilities pursuant to IAS 39: Financial Instruments: Recognition and Measurement, would not significantly impact the separate financial statements, if applied as at the reporting date.

## **3. ACCOUNTING POLICY**

### **3.1. Scope and objective**

The accounting policy comprises principles and basic assumptions, concepts, rules, practices, bases and procedures, adopted by management for reporting the activity of the Bank, and the preparation and presentation of the financial statements.

The purpose of the accounting policy is to provide the necessary organizational and methodological uniformity in the process of financial reporting of the Bank’s activities, aimed at providing a true and fair presentation of the Bank’s financial position and result of operations in the annual financial statements.

### **3.2. Major components of the accounting policy**

#### **3.2.1. Interest income and expenses**

Interest income and expenses are recognized on a time proportion basis using the effective interest method, as the difference between the amount at initial recognition of the respective asset or liability and the amount at maturity is amortized.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**3. ACCOUNTING POLICY (CONTINUED)**

For loans granted by the Bank and amounts owed to depositors, where the interest is calculated on a daily basis by applying the contractual interest rate to the outstanding balance, the effective interest rate is considered to be approximately equal to the contractual interest rate due to the nature of the contractual terms.

Interest earned as a result of holding trading securities or securities available for sale is reported as interest income. Interest income includes the amount of amortization of any discount, premium or other difference between the initial cost of debt securities and their amount at maturity.

Upon acquisition of an interest-bearing investment, the interest accrued as of the acquisition date is accounted for as interest receivable.

**3.2.2. Fees and commissions**

Fees and commissions consist mainly of fees for payment transactions in BGN and in foreign currency, fees for granting and management of loans, opening of letters of credit and issuance of guarantees. Fees and commissions are recognized when the service is performed or becomes due.

Commissions arising from foreign currency transactions are reported in the statement of comprehensive income on their receipt. Fees and commissions for granting and management of loans when considered to be part of the effective income are amortized during the loan term and are recognized as current financial income during the period by adjusting the effective interest income.

**3.2.3 Foreign currency transactions**

Transactions denominated in foreign currency are converted into BGN at rates set by BNB for the transaction date. Receivables and liabilities denominated in foreign currency are converted into BGN as of the date of statement of financial position preparation at the exchange rates of BNB for the same date.

Net foreign exchange rate gains or losses, arising from translation at the rates of BNB as of the transaction date, are included in the statement of comprehensive income for the period, when they arise.

The Bank carries out daily revaluation of all currency assets and liabilities and off-balance sheet positions at the official rate for the respective day. The net gains and losses, arising from revaluation of balance sheet currency positions, are reported in the statement of comprehensive income for the period, in which they arise.

As of 2002 the Bulgarian Lev is fixed to the Euro at the rate of EUR 1 = BGN 1.95583.

The exchange rates of USD and the Bulgarian Lev as of 31 December 2013 and 2012 are as follows:

December 31, 2013	December 31, 2012
USD 1 = BGN 1.41902	USD 1 = BGN 1.4836

### **3. ACCOUNTING POLICY (CONTINUED)**

#### **3.2. Major components of the accounting policy (continued)**

##### **3.2.4. Financial assets**

Financial assets held for trading are acquired by the Bank with the purpose of generating income from short-term price or dealing margin fluctuations, or they are assets, included in a portfolio, for which a short-term profit realization is probable. These include discount and interest-bearing government securities held for trade, as well as corporate securities of financial and non-financial companies, in which the Bank does not have a controlling interest.

Financial assets available for sale are those financial assets, which are not held for trading, not held to maturity and are not loans and receivables, which have initially originated at the Bank. Financial assets available for sale include acquired interest-bearing government and corporate securities, as well as equity investments in financial and non-financial enterprises, in which the Bank does not have a controlling interest.

Financial assets held to maturity are assets with fixed payments and maturity, which the Bank has the intention and ability to hold to maturity, irrespective of the possibility to sell them upon arising of favourable conditions in the future. These assets consist of acquired interest-bearing government and corporate securities.

Loans and advances, originated initially by the Bank with a fixed maturity date, are financial assets, incurred by direct granting of funds or services with fixed maturity to certain customers.

#### **Recognition**

Financial assets are recognized only when the Bank becomes a party under the contract provisions of the instrument. Their initial recognition is on the contract settlement date /payment date/.

#### **Initial measurement**

Financial assets held for trading are recognized initially at fair value. All expenses related directly to the acquisition of the financial asset are reported as current.

Financial assets, other than financial assets held for trading, are recognized initially at fair value, which is equal to the amount of the fair value of the consideration given and the related expenses. The expenses related to the transaction and included in the acquisition cost are fees, commissions and other remuneration paid to agents, brokers, consultants, dealers, and other persons directly involved in the transaction, taxes, charges, permits, etc. paid to stock exchanges and regulatory authorities. All other expenses are reported as current expenses in the period when incurred. Acquisition cost does not include accrued interest on the financial asset, not paid as of the date of acquisition. Such interest is reported as accrued interest receivable.

#### **Subsequent measurement**

After initial recognition, financial assets held for trading are stated at fair value. Fair value is determined on the basis of quoted prices on an active market. The difference between the carrying amount of the financial asset and its fair value is reported as a current financial income or current financial expense in the period of occurrence.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**3. ACCOUNTING POLICY (CONTINUED)**

**3.2. Major components of the accounting policy (continued)**

**3.2.4. Financial assets (continued)**

**Subsequent measurement (continued)**

After initial recognition, financial assets held for trading are stated at fair value. Fair value is determined on the basis of quoted prices on an active market or other reliable models for measurement, which reflect the specific circumstances of the issuer. The difference between the carrying amount of the financial asset and its fair value is accounted for as an increase or decrease of revaluation reserve. After initial recognition, equity instruments, classified as financial assets available for sale, for which there are no quoted prices on an active market and/or for which no reliable models for measurement can be applied are stated at cost.

After initial recognition, financial assets held to maturity are stated at amortized cost, applying the effective interest method and are not revaluated. Amortized cost is the initial value /acquisition cost/ of the asset, increased by the accumulated amortization for any difference between the initial amount and the amount at maturity, and reduced by repayments of principle, accumulated amortization for any difference between the initial amount and the amount at maturity, and the allowance for impairment and/or uncollectability. The amortization is calculated by applying the effective interest rate.

After initial recognition, loans and advances originated initially by the Bank with fixed maturity are reported at amortized cost, applying the effective interest method and are not subject to revaluation.

The amortized cost is the initial value of the asset, increased by the accumulated amortization for any difference between the initial amount and the amount at maturity, less repayments of the principle and the allowance for impairment and/or uncollectability. The amortization is calculated by applying the effective interest rate.

**Derecognition**

Financial assets are derecognized when the Bank loses control over the contractual rights in relation to realizing the rights associated with the asset, waiver of the rights associated with the asset and expiry of the term for realizing of the rights associated with the asset. Net profit or loss as a result of the write off is reported in the statement of comprehensive income in the period of its occurrence. The revaluation reserve accumulated as of the date of derecognition is recognized as current financial expense or financial income.

**Impairment for uncollectability**

Financial assets are impaired if any conditions for impairment exist: there is evidence about financial difficulties; there is an actual breach of the contract; the issuer has performed restructuring of the debt; the issuer's securities have been excluded from the stock exchange.

For the purpose of preparation of the financial statements, financial assets available for sale, which are stated at fair value, are reviewed for impairment, if impairment is not already provided in the revaluation performed as of the date of annual financial statements. In case of existing condition for impairment, the recoverable amount of financial assets is determined.

**3. ACCOUNTING POLICY (CONTINUED)**

**3.2. Major components of the accounting policy (continued)**

**3.2.4. Financial assets (continued)**

**Impairment for uncollectability (continued)**

If the expected recoverable amount of the financial assets is lower than their carrying amount, impairment is provided as follows:

- if at the moment of impairment there is no revaluation reserve – the difference between the carrying amount and the expected recoverable amount is recorded as a current financial expense and a decrease in the value of financial assets;
- if at the moment of impairment there is a revaluation reserve, which is positive and lower than the amount of impairment – the carrying amount of the assets and the amount of the revaluation reserve /which becomes zero/ are decreased by the amount of impairment up to the revaluation reserve balance. The remaining part of the amount of impairment is accounted for as a current financial expense and a decrease in the carrying amount of assets;
- if at the moment of impairment there is a revaluation reserve, which is negative, the difference between the carrying amount and the expected recoverable value is recorded as a current financial expense and a decrease in the value of the financial assets, and the negative value of the revaluation reserve is transferred to and stated in the current financial expenses;
- if at the moment of impairment there is a revaluation reserve, which is positive and is greater than the amount of impairment, the value of the investment and the amount of the revaluation reserve are decreased by the impairment amount.

Financial assets held to maturity are reviewed for indications of impairment, in relation to preparation of the annual financial statements. Allowances for impairment and uncollectability of the securities held by the Bank, measured at amortized cost, are determined as the difference between the carrying amount and the present value of the future cash flows, discounted at the original effective interest rate. If the present value of the future cash flows of securities is lower than their carrying amount, then allowance for impairment is provided. The difference is reported as current financial expense and decrease in the value of securities. Decrease of allowances for impairment and uncollectability is stated in the statement of comprehensive income for the respective period. Recovered amounts, previously written off, are treated as income by releasing the allowances for impairment and uncollectability for the respective year.

Loans and advances, originated initially by the Bank with a fixed maturity, are reviewed for indications of impairment, in relation to preparation of the annual financial statements. Allowances for impairment and uncollectability of loans originated by the Bank, measured at amortized cost, are determined as the difference between the carrying amount and the present value of the future cash flows discounted at the loan original effective interest rate, where appropriate. Management determines the expected future cash flows based upon reviews of individual borrowers, loan exposures and other relevant factors. If the present value of the future cash flows of loans is lower than their carrying amount, then allowance for impairment is provided.

### **3. ACCOUNTING POLICY (CONTINUED)**

#### **3.2. Major components of the accounting policy (continued)**

##### **3.2.4. Financial assets (continued)**

The difference is reported as a current financial expense and a decrease in the value of loans. Decrease of allowances for impairment and uncollectability is stated in the statement of comprehensive income for the respective period. Recovered amounts, previously written off, are treated as income by releasing the allowances for impairment and uncollectability for the respective year. Loans and advances that cannot be recovered are written off and charged against the accumulated allowances for impairment and uncollectability. Such loans are written off after all necessary legal procedures have been completed and the amount of the loss has been determined.

The Bank has adopted a methodology for the calculation of allowances for impairment of loans based on IFRS and in compliance with the requirements of the banking regulations in Bulgaria. The Bank classifies its loans in several groups. A specified percentage rate for non-regular loans, which are above the minimum required by the regulations, is applied to contractual cash flows as a mean to determine the expected cash flows, which are then to be discounted as stated above. Other specific requirements of the regulations relate to conditions for transfers of non-regular into regular loans and recognition of liquid collaterals with the purpose of assessment of the allowances for impairment and uncollectability of loans.

The amount of potential losses, which are not exactly identified, but based on previous experience may be expected for a group of loans with similar characteristics, is also charged as provision expense and decrease of the loans' carrying amount. The expected losses are measured based on previous experience, customers' credit rating, and economic environment.

##### **3.2.5 Investments in subsidiaries**

Subsidiaries are those entities in which the Bank's ownership directly or indirectly exceeds 50% of the voting rights or it can exercise control over their operating and financial policy.

In the separate financial statements of the Bank the shares and interests in the subsidiaries are initially recognized at acquisition cost. Subsequently, the Bank performs reviews periodically to determine whether there are indications for impairment. Impairment is recognized in the statement of comprehensive income as impairment losses of investments in subsidiaries.

Dividends received from subsidiaries are recognized and reported in the statement of comprehensive income, when the right of the Bank for receiving dividend is established.

##### **3.2.6. Receivables and liabilities under repurchase agreements**

Receivables and liabilities under repurchase agreements are recognized at cost, which is equal to the fair value of the funds placed/obtained by the Bank, secured by the value of the securities. Interest due on the fair value of the funds placed/obtained for the term of the agreement is accounted and recognized as interest income/expense in the period of its occurrence.

Securities pledged as collateral on repurchase agreements are not derecognized in the statement of financial position of the Bank in cases when the risks and rewards of ownership are not transferred.

Securities received as collateral under repurchase agreements are not recorded in the statement of financial position of the Bank in cases when the risks and rewards of ownership are not transferred.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**3. ACCOUNTING POLICY (CONTINUED)**

**3.2. Major components of the accounting policy (continued)**

**3.2.7. Cash and cash equivalents**

Cash and cash equivalents, for the purpose of the cash flows statement preparation, include cash, balances with the Central Bank (BNB) and nostro accounts, which are unrestricted demand deposits at other banks, as well as placements with, loans and advances to other banks with a maturity up to 3 months.

**3.2.8. Fair value of financial assets and liabilities**

IFRS 7 “Financial Instruments: Disclosure”, provides for the disclosure in the notes to the financial statements of information about the fair value of the financial assets and liabilities. For this purpose fair value is defined as the amount, for which an asset can be exchanged, or a liability settled between knowledgeable, willing parties in an arm’s length transaction.

It is the policy of the Bank to disclose fair value information on those assets and liabilities, for which published market information is readily available and whose fair value significantly differs from their carrying amounts. The fair value of cash and cash equivalents, deposits and loans, granted by the Bank, other receivables, deposits, borrowings and other current liabilities approximates their carrying amount, in case they mature in a short period of time. Sufficient market experience, as well as stable and liquid market currently does not exist for purchases and sales of loans and equity instruments, for which published market information is not readily available. In the opinion of the management, under these circumstances, the reported recoverable amounts of the financial assets and liabilities are the most reliable and efficient for the purposes of the separate financial statements.

For the assets and liabilities recognized at fair value in the statement of financial position the Bank discloses for each class financial instruments the hierarchy level of fair value to which the measurements of fair value are categorized in their full scope, each significant transfer between level 1 and 2 of the fair value hierarchy and the respective reasons, as well as reconciliation of opening and closing balances for the level 3 measurements.

Fair value hierarchy

The Bank uses the following hierarchy to measure and disclose the fair value of financial instruments through evaluation technique:

- Level 1: quoted (unadjusted) prices of active markets for identical assets or liabilities;
- Level 2: other techniques for which the whole incoming information that has material effect on the reported fair value is subject to direct or indirect monitoring;
- Level 3: techniques which use incoming information that has material effect on the reported fair value and are not based on monitored market data.

**3.2.9. Netting**

The financial assets and liabilities are netted, and the net value is presented in the statement of financial position when the Bank is entitled by law to net the recognized values, and the transactions are intended to be settled on a net basis.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013  
All amounts are in thousand Bulgarian Levs, unless otherwise stated

### 3. ACCOUNTING POLICY (CONTINUED)

#### 3.2. Major components of the accounting policy (continued)

##### 3.2.10. Provisions for credit commitments

The amount of provisions for guarantees and other off-balance credit commitments is recognized as an expense and a liability when the Bank has current legal or constructive obligations, which have occurred as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle that obligation and a reasonable estimate of the amount of the liability can be made. Any loss resulting from recognition of provisions for liabilities is reported in the statement of comprehensive income for the respective period.

##### 3.2.11. Derivatives

Derivatives are stated at fair value and recognized in the statement of financial position as derivatives for trading. The fair value of derivatives is based on the market price or relevant valuation models. Derivative assets are presented as part of the financial assets held for trading, while the derivative liabilities are presented as part of other liabilities. Any change in the fair value of derivatives for trade is recognized as a part of the net trading income in the statement of comprehensive income.

##### 3.2.12. Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets are identifiable non-monetary assets acquired and possessed by the Bank and held for use in the production and/or rendering of services, for renting, administrative and other purposes. They are stated at acquisition cost less charged depreciation and accumulated losses from impairment.

Depreciation of property, plant and equipment and amortization of intangible assets are calculated by using the straight-line method designed to write off the assets value over their estimated useful life. The annual depreciation and amortization rates are as follows:

Buildings	4%	(25 years)
Fixtures and fittings	15%	(7 years)
Motor vehicles	15%	(7 years)
Other assets	15%	(7 years)
Special equipment, cable networks and security systems	4%	(25 years)
Equipment, including hardware and software	20%	(5 years)

Land, assets for resale, assets under construction, assets to be disposed and fully depreciated assets are not subject to depreciation.

The management of the Bank has performed a review for impairment of property, plant and equipment and intangible assets as of the date of preparation of these separate financial statements. No evidence of impairment of property, plant and equipment and intangible assets has been identified; therefore they have not been impaired.

##### 3.2.13. Non-current assets held for sale

Real estate property acquired by the Bank as a mortgage creditor on granted and not serviced loans is classified as non-current assets held for trading and is stated initially at cost. After initial recognition, these assets are reported at the lower of the carrying amount or fair value, less expenses for realization. No depreciation is accrued for these assets.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**3. ACCOUNTING POLICY (CONTINUED)**

**3.2. Major components of the accounting policy (continued)**

**3.2.14. Taxation**

Corporate income tax is calculated on the basis of profit for the period and includes current and deferred taxes. Taxes due are calculated in accordance with the Bulgarian tax legislation.

Current income tax is calculated on the basis of the taxable profit, by adjusting the statutory financial result for certain income and expenditure items, not approved for tax purposes, as required under Bulgarian accounting legislation, applicable for banks.

Deferred income taxes are calculated using the balance sheet liability method. Deferred income taxes represent the net tax effect of all temporary differences between the tax basis of assets and liabilities and their carrying amount for financial reporting purposes. Deferred tax assets and liabilities are calculated at the tax rates, which are expected to apply to taxable profit for the period, when the temporary differences are expected to be recovered or settled. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Bank expects, at the date of the statement of financial position to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are recognized regardless when the temporary difference is likely to reverse.

Any tax effect, related to transactions or other events, recognized in the statement of comprehensive income, is also recognized in the statement of comprehensive income and tax effect, related to transactions and events, recognized directly in equity, is also recognized directly in equity.

A deferred tax liability is recognized for all taxable temporary differences unless it arises from the initial recognition of an asset or liability in a transaction, which at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognized for all deductible temporary differences to the extent that taxable profit is probable, against which the deductible temporary difference can be utilized, unless the deferred asset arises from the initial recognition of an asset or liability in a transaction, which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

Current and deferred taxes are recognized as income or expense and are included in the net profit for the period, except to the extent that the tax arises from a transaction or event, which is recognized in the same or different period, directly in equity. Deferred taxes are charged or deducted directly in equity, when the tax relates to items that are charged or deducted in the same or different period, directly in equity.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**3. ACCOUNTING POLICY (CONTINUED)**

**3.3. Accounting estimates, assumptions and key areas of uncertainty**

The presentation of financial statements requires management to apply certain accounting estimates and reasonable assumptions that affect some of the carrying amounts of assets and liabilities, revenues and expenses for the reporting period and disclosures of contingent assets and liabilities. Although these estimates and assumptions are based on the best estimate as of the date of the preparation of the separate financial statements, they may differ from the future actual results.

The most significant areas of uncertainty, which require estimates and assumptions in applying the accounting policies of the Bank, are as follows:

- Fair value of the financial instruments;
- Allowances for impairment of loans;
- Useful life of the depreciable assets;
- Impairment of financial assets available for sale.

In the last several years as a result of the global economic crisis different industries and sectors in the Bulgarian economy have marked a decline which causes uncertainty and risks for their development in the foreseeable future. The declining rates of economic development increase the risks of the economic environment in which the Bank operates. Therefore, the amount of impairment losses on loans and advances, financial assets available for sale, other financial instruments, as well as the values of other accounting estimates in subsequent reporting periods may differ from those measured and reported in these separate financial statements. The recoverability of the loans and the adequacy of the recognized impairment losses, as well as the maintaining of the Bank's liquidity ratios depend on the financial position of the borrowers and their ability to settle their obligations at contracted maturity in subsequent reporting periods. Bank's management applies the necessary procedures to manage these risks, as disclosed in note 34.

**3.4. Capital management**

The Bank defines its risk-bearing capacity as the amount of financial resources that are available for absorbing losses, which may be incurred due to the risk profile of the Bank. Financial resources are classified into Tiers of risk capital according to their ability to cover losses, ability to defer payments, and permanence.

The Bank calculates, monitors and reports its risk capital for all major risk categories – credit, market and operational risk. In managing its risk capital, the Bank follows the legal framework, as well as its own objectives. Bulgarian banks must maintain Core Tier I Capital Adequacy Ratio of at least 6%, and Total Risk Capital Adequacy Ratio of at least 12%. For 2013 and 2012 the Bank is in compliance with the regulatory requirements for minimum capital adequacy.

CENTRAL COOPERATIVE BANK AD

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

<b>TOTAL CASH AND BALANCES WITH THE CENTRAL BANK</b>	<b>930,904</b>	<b>871,577</b>

The current account with BNB is used for direct participation in the government securities and money market, as well as for the purposes of bank settlement in the country.

Commercial banks in Bulgaria are required to maintain minimum required reserves at BNB. The minimum obligatory reserve, periodically set by BNB, is interest-free and is calculated as a percentage ratio based on the attracted funds in BGN and foreign currency. These reserves are regulated on a monthly basis as any deficit incurs interest penalties. No restrictions are imposed by the Central Bank for using the minimum reserves, as daily fluctuations within the one-month regulation period are allowed.

In compliance with the Ordinances of the Central bank, the Bank allocates reserve guarantee fund to ensure the settlement of payments by means of the Real Time Gross Settlement system RINGS.

**(c) Interest rates**

Loans denominated in BGN and foreign currency carry interest at floating rates. Under the terms of these loans, the interest rate is calculated as the Bank base interest rate, plus a margin. The interest rate margin on performing (regular) loans varies from 2% to 5% based on the credit risk associated with the borrower, and a 35% interest is charged as penalty on overdue loans, corresponding to the interest on not allowed overdraft.

**9. OTHER ASSETS**

	As of 31.12.2013	As of 31.12.2012
Deferred tax assets	172	183
Current tax assets	427	1,075

<b>TOTAL OTHER ASSETS</b>	<u><u>57,406</u></u>	<u><u>65,993</u></u>

Deferred expenses represent prepaid amounts for advertising, rent, insurance, etc.

The established real rights for use of buildings are received as follows:

- in December 2008 from two Bulgarian commercial companies. The real rights are related to two solid administrative buildings, which are situated in the very centre of Sofia, which will be used for the purposes of the head office of the Bank. The real right of use on the first building is established for a period of 98 months for the amount of EUR 5,372 thousand. The real right of use on the second building is established for a period of 149 months for the amount of EUR 15,598 thousand.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**9. OTHER ASSETS (CONTINUED)**

- in June 2010 from a Bulgarian commercial company. The real rights are related to fourteen administrative buildings located in several large cities throughout the country, which will be used as Bank's offices. The rights of use on the buildings are established for a period between 115 and 120 months for the total amount of BGN 20,327 thousand.
- in December 2010 the term of the real right of use on one of the administrative buildings situated in the very center of Sofia was extended by three months at the amount of EUR 292 thousand.
- in June 2011 from a Bulgarian commercial company. The real rights are related to eleven administrative buildings located in several large cities throughout the country, which will be used as Bank's offices. The rights of use on the buildings are established for a period of 132 months for the total amount of BGN 12,797 thousand.

The carrying amount of established real rights includes also the expenses for taxes and fees related to the establishment. The carrying amount of each real right for use will be amortized on equal parts for the respective period of use of buildings.

**12. INVESTMENTS IN SUBSIDIARIES****12.1. Investment in subsidiary Central Cooperative Bank, Skopje, Republic of Macedonia**

In February 2008 the Bank acquired control on the equity of the subsidiary Central Cooperative Bank, Skopje (in the Republic of Macedonia). In October 2009 22,354 ordinary voting shares owned by the Bank are converted into privileged shares with no voting rights. In December 2009 Central Cooperative Bank AD Skopje withdrew 208 of its own privileged shares.

In 2010 by resolution of the General meeting of the shareholders of the subsidiary all privileged shares with no voting rights were converted into ordinary voting shares as one privileged share with no voting rights for one ordinary voting share. As of 31 December 2010 the Bank owns 263,696 ordinary voting shares representing 82.63% of the subsidiary's equity at the amount of BGN 34,881 thousand.

## 12. INVESTMENTS IN SUBSIDIARIES

### 12.1. Investment in subsidiary Central Cooperative Bank, Skopje, Republic of Macedonia (continued)

In April 2010 the Bank acquired 317,864 ordinary voting shares of the share capital of Stater Bank, Kumanovo, Republic of Macedonia and obtained control of the equity of the subsidiary. Before the acquisition the Bank owned 5,975 privileged shares with no voting rights of the subsidiary. Later, within the year, by resolution of the General meeting of the shareholders of the subsidiary all privileged shares with no voting rights were converted into ordinary voting shares as one privileged share with no voting rights equalled one ordinary voting share. As of 31 December 2010 the Bank owns 323,839 ordinary voting shares representing 93.79% of the subsidiary's equity.

On 9 December 2010, by resolutions of the General meetings of the shareholders of the subsidiaries Stater Bank AD Kumanovo and Central Cooperative Bank AD Skopje an agreement was reached to merge Stater Bank AD Kumanovo into Central Cooperative Bank AD Skopje. According to this merger agreement Central Cooperative Bank AD Skopje issued 233,944 new ordinary shares with nominal value EUR 41.2069 or 593,795,205 MKD each. All new shares were given only to the shareholders of Stater Bank AD Kumanovo and the coefficient of exchange of the existing shares of Stater bank AD Kumanovo with the shares of the new issue was 1:0.6776. As a result of the exchange Central Cooperative Bank AD Sofia acquired 219,425 ordinary shares of the new issue of Central Cooperative Bank AD Skopje in place of the 323,839 ordinary shares in the equity of Stater Bank AD Kumanovo owned as of 31 December 2010.

On 3 January 2011 the merger of Stater Bank AD Kumanovo in Central Cooperative Bank AD Skopje was concluded and all assets of Stater Bank AD Kumanovo were transferred to Central Cooperative Banks AD Skopje. On 3 January 2011, by decision of the Central Register of Republic of Macedonia, Stater Bank AD Kumanovo ceased to exist as legal entity. After the merger conclusion the capital of Central Cooperative Bank AD Skopje consists of 553,087 ordinary shares with nominal value EUR 41.2069 each.

As of 31 December 2011 Central Cooperative Bank AD Sofia owns 483,121 ordinary shares in the equity of Central Cooperative Bank AD Skopje which represents 87.35% of the share capital of the subsidiary.

In 2012, there is no changes in the shareholding of the Central Cooperative Bank AD, Sofia in Central Cooperative Bank AD, Skopje, and therefore as of 31 December 2012 Central Cooperative Bank AD, Sofia owns 483,121 ordinary shares in the equity of Central Cooperative Bank AD Skopje which represents 87.35% of the share capital of the subsidiary. As of 31 December 2012 the Bank's investment in its subsidiary amounts to BGN 46,216 thousand.

In 2013, there is no changes in the shareholding of the Central Cooperative Bank AD, Sofia in Central Cooperative Bank AD, Skopje, and therefore as of 31 December 2012 Central Cooperative Bank AD, Sofia owns 483,121 ordinary shares in the equity of Central Cooperative Bank AD Skopje which represents 87.35% of the share capital of the subsidiary. As of 31 December 2013 the Bank's investment in its subsidiary amounts to BGN 46,216 thousand.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**12. INVESTMENTS IN SUBSIDIARIES (CONTINUED)**

**12.2. Investment in subsidiary CCB Assets Management EAD, Sofia, Bulgaria**

In December 2011 the Bank acquired 500,000 non-materialised, ordinary shares by name, with voting rights, and with nominal value of BGN 1.00 each, representing 100% of the capital of the Management Company CCB Assets Management EAD with which the Bank received controlling interest in the capital of the subsidiary.

In 2012 and 2013, there are no changes in the shareholding of the Central Cooperative Bank AD, Sofia in Management Company CCB Assets Management EAD, therefore as of the 31 December 2012 Central Cooperative Bank AD, Sofia owns 500,000 ordinary shares of Management Company CCB Assets Management EAD, which represents 100% of the share capital of the subsidiary. As of 31 December 2012 and 2013 the Bank's investment in its subsidiary amounts to BGN 3,200 thousand.

**12.4. Investment in subsidiary ZAO AKB "TatInvestBank", Kazan, the Republic of Tatarstan, Russian Federation**

In May 2012 the Bank acquired 15,000,000 ordinary shares with voting rights and a nominal value of RUB 10 each from the share capital increase of ZAO AKB "TatInvestBank", Kazan, the Republic of Tatarstan, Russian Federation by which obtained a controlling interest in the subsidiary's share capital. Before the acquisition the Bank owns 1,422,630 ordinary shares with voting rights of the subsidiary's equity. Later in the year, the Bank acquired additional 3,351 ordinary shares with voting rights of the subsidiary's share capital. As of 31 December 2012 the Bank owns 16,425,981 ordinary shares with voting rights, representing 55.93% of the subsidiary's share capital.

In 2013 the Bank acquired additional 71,924 ordinary shares with voting rights from the share capital increase of ZAO AKB "TatInvestBank", Kazan, the Republic of Tatarstan, Russian Federation. As a result, as of 31 December 2013, the Bank owns 16,497,905 ordinary shares with voting rights, representing 56.20 % of the subsidiary's share capital.

**18. OTHER ATTRACTED FUNDS**

As of 31 December 2013 and 2012 other attracted funds include financing from the State Agricultural Fund amounting to BGN 290 thousand and BGN 1,000 thousand (including interest) respectively, for granting loans to the agricultural sector. The credit risk for collectability of these loans shall be assumed by the Bank.

**19. SUBORDINATED LIABILITIES**

In December 2013 after received permission of BNB, the Bank has made an early repayment of the subordinated term debt with CCB Group EAD from December 2012 under requirements of Regulation №8, dated 14.12.2006 of BNB on the Capital Adequacy of Credit Institutions at the amount of BGN 45,000 thousand, together with the interest payables.

**20. ISSUED BONDS**

In December 2013 the Bank issued through public offering convertible bonds at the amount of EUR 36,000,000, divided into 36,000 bonds with a nominal value of EUR 1,000. The bonds are subordinated, unsecured, interest-bearing, freely transferable, non-cash convertible into ordinary shares of the Bank. The debenture loan has a term of 7 years at 4.5% annual interest rate, as the principal of the loan is paid off at maturity of issue – 10.12.2020. The interest payments are made annually with maturities as follows: 10.12.2014, 10.12.2015, 10.12.2016, 10.12.2017, 10.12.2018, 12.10.2019 and 12.10.2020. Under the terms of the issue the bondholders do not have the right to require payment of principal and interest before maturity, including in cases of default of the issuer, except in certain circumstances at the time of payment and prior authorization by BNB. Amendments and additions to the terms of the bond issue can be made only with the prior written permission of BNB. The liability as of December 31, 2013 amounts to BGN 69,897 thousand, including interest payables and reflected costs associated with the issuance of the bonds.

Income from deferred taxes, related to the origination and reversal of temporary differences	11	(28)
<b>TOTAL TAX EXPENSES</b>	<b>891</b>	<b>1,582</b>

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**30. TAXES (CONTINUED)**

Current tax expenses represent the amount of the tax due according to Bulgarian legislation and the applicable tax rates of 10% for 2013 and 2012. Deferred tax income and expenses result from the change in the carrying amount of deferred tax assets and liabilities. The deferred tax assets and liabilities as of December 31, 2013 and 2012 are calculated based on the tax rate of 10%, effective for 2014 and 2013.

Deferred tax assets are as follows:

	As of 31.12.2012	As of 31.12.2011
Deferred tax assets:		
Other liabilities (unused annual paid leaves)	156	157
Property, plant and equipment and intangible assets	16	26
<b>DEFERRED TAX ASSET</b>	<b>172</b>	<b>183</b>

Deferred tax liabilities are as follows:

	As of 31.12.2013	As of 31.12.2012
Deferred tax liabilities:		
Merge of entities during 2010	209	209
<b>DEFERRED TAX LIABILITY</b>	<b>209</b>	<b>209</b>

The relationship between tax expense in the statement of comprehensive income and the accounting profit is as follows:

	Year ended 31.12.2013	Year ended 31.12.2012
Profit before taxes	11,036	11,668
Taxes at applicable tax rates: 10% for 2013 and 10% for 2012	1,104	1,167
Tax effect on non-taxable income/non-taxable deductible expenses from transactions with shares on a regulated local exchange, dividends and other	(213)	415
<b>TAX EXPENSES</b>	<b>891</b>	<b>1,582</b>
<b>EFFECTIVE TAX RATE</b>	<b>8,07%</b>	<b>13,56%</b>

**31. EARNINGS PER SHARE (IN BGN)**

	Year ended 31.12.2013	Year ended 31.12.2012
Net profit before tax in BGN thousands	10,145	10,086
Weighted average number of shares	113,154,291	113,154,291
<b>EARNINGS PER SHARE (IN BGN)</b>	<b>0.09</b>	<b>0.09</b>

The basic earnings per share is determined by dividing the net profit for the period, attributable to ordinary shareholders, by the weighted average number of ordinary shares outstanding during the years ended December 31, 2013 and 2012, respectively.

## NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**31. EARNINGS PER SHARE (IN BGN) (CONTINUED)**

The weighted average number of shares is calculated as a sum of the number of ordinary shares outstanding at the beginning of the period and the number of ordinary shares issued during the period, as every of the above sums is multiplied by the time-weighting factor in advance.

The Bank does not have potentially dilutive instruments and diluted earnings per share is the same as basic earnings per share.

**32. CONTINGENT LIABILITIES**

The total amount of contingent liabilities as of the year end is as follows:

	As of 31.12.2013	As of 31.12.2012
Bank guarantees		
In BGN	33,636	27,510
In foreign currency	27,795	47,902
Irrevocable commitments	101,806	72,797
Other contingent liabilities	241	71
<b>TOTAL CONTINGENT LIABILITIES</b>	<b>163,478</b>	<b>148,280</b>

As of December 31, 2013 and 2012 the Bank has signed contracts for granting loans to customers at the total amount of BGN 101,806 thousand and BGN 72,797 thousand, respectively. The future utilization of these amounts depends on the customers' ability to meet certain criteria, including no record of overdue payments on previously granted loans, provided collateral with suitable quality and liquidity, etc.

**33. ANALYSIS OF CHANGES IN CASH AND CASH EQUIVALENTS**

	Year ended 31.12.2013	Year ended 31.12.2012
Cash	119,958	92,445

Placements with, and advances to, banks with residual maturity up to 3 months	289,973	180,584
<b>AS OF DECEMBER 31</b>	<b>1,220,877</b>	<b>1,052,161</b>

**34. FINANCIAL RISK MANAGEMENT**

The risk inherent to the Bank's operations with financial instruments is the possibility that actual proceeds from owned financial instruments could differ from the estimated ones. The specifics of banking necessitate adequate systems for timely identification and management of different types of risk as emphasis is put on risk management procedures, mechanisms for maintaining risk in reasonable limits, optimal liquidity and portfolio diversification. The main risk management goal is to present and analyse the types of risks, which the Bank is exposed to, in a convincing and comprehensive manner.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)**

The risk management system has preventive functions for loss prevention and control of the amount of incurred loss and includes:

- Risk management policy;
- rules, methods and procedures for assessment and risk management;
- risk management organizational structure;
- parameters and limits for transactions and operations;
- procedures for reporting, assessment, notification and subsequent control of risks.

The main underlying principles in the Bank's risk management policy are:

- separation of responsibilities between those taking the risk and those managing risk;
- the principle of caution, which presumes the consideration of the worst case scenario for each of the risk weighted assets;
- the principle of risk management at the source.

The risk management organizational structure is centralized and structured in terms of competency levels as follows:

- Management Board - determines the acceptable levels of risk for the Bank within the adopted development strategy;
- Special collective bodies – prepare proposals to MB, the Executive directors and the Procurator regarding the Bank's risk management framework and activity parameters;
- Executive directors and Procurator – fulfil the general control, organize and manage the approval process and application of adequate policies and procedures within the frameworks of the risk management strategy, adopted by the Bank;
- Heads of structural units within the Bank - implement the adopted risk management policy in the organization of the activities of the respective organizational units.

The Bank's exposures in derivative financial instruments are presented at fair value transactions for the purchase and sale of foreign currency, securities, forward contracts and foreign currency swaps on the open market. Most of them represent positions of the Bank's clients for foreign currency sale and purchase transactions and the related transactions on behalf of the Bank. The traded on the Bank's account speculative positions in derivative instruments are less than 10% of the total fair value of the derivative financial instruments, with insignificant amount and the Bank is not exposed to the respective risks inherent to such instruments.

The nature and the essence of the risks, inherent to financial instruments of the Bank are as follows:

**Credit risk**

Credit risk is the risk of loss due to the probability that a counterparty will be unable to pay its obligations when due or at all. The Bank manages the credit risk inherent for banking portfolio and trade portfolio. For the individual business segments the Bank applies individual credit policies.

For credit risk limitation, the Bank has implemented system of limits by classes, exposures, business sectors, geographical regions, client's profile and credit groups bearing common risk. The limits define the risk appetite and tolerance to credit risk and the capital planned allocation needed for its covering.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)**

**Credit risk (continued)**

To mitigate credit risk, respective collaterals and guarantees are required according to the internal credit rules, the applied approach for calculating the capital requirements and the Bulgarian legislation in effect.

Cash and balances with the Central bank at the amount of BGN 930,904 thousand does not bear credit risk to the Bank due to their nature and the fact that they are at the Bank's disposal.

Placements with, and advances to banks at the amount of BGN 293,717 thousand comprise mostly deposits in first-class international and Bulgarian financial institutions with maturity up to 7 days. Generally, according to the policy of the Bank, these financial assets bear some credit risk as its maximum exposure as per the Bank's policy can be is 20 %, 50% and 100% as the percentage is defined based on the quality characteristics of the financial institution. As of December 31, 2013 the absolute amount of this type of risk is BGN 59,216 thousand.

Receivables under repurchase agreements of securities at the amount of BGN 48,664 thousand bears credit risk for the Bank depending on the provided collateral. Part of the receivables at the amount of BGN 15,489 thousand does not bear credit risk for the Bank due to the fact that they are secured by Bulgarian government securities, guaranteed by the Republic of Bulgaria. The residual part of the receivables at the amount of BGN 33,175 thousand are secured with corporate securities and bears 100% risk.

Financial assets held for trading at the amount of BGN 131,833 thousand bear mainly market risk for the Bank which is discussed in the market risk disclosures.

Equity securities, available for sale at the amount of BGN 27,828 thousand represent shares in financial and non-financial enterprises and mutual funds which bear maximum credit risk exposure of 100% as a percentage or of BGN 27,828 thousand as an absolute amount.

Debt securities available for sale and issued by the Republic of Bulgaria at the amount of BGN 43,066 thousand do not bear credit risk as they are guaranteed by the Bulgarian state. Debt securities available for sale and issued by other European countries at the amount of BGN 34,819 thousand bear credit risk to the Bank of 0%, 20% and 100% depending on the country – issuer, the amount of which is BGN 6,204 thousand.

Debt securities available for sale and issued by local and foreign commercial companies at the amount of BGN 98,539 thousand bear credit risk for the Bank with maximum exposure 100% or BGN 98,539 thousand as an absolute amount.

Debt securities held to maturity and issued by the Republic of Bulgaria at the amount of BGN 139,787 thousand do not bear credit risk for the Bank due to the fact that they are guaranteed by the Bulgarian State.

Debt securities held to maturity and issued by foreign commercial companies at the amount of BGN 20,466 thousand bear credit risk for the Bank with maximum exposure 100% or BGN 20,466 thousand as an absolute amount.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)****Credit risk (continued)**

The investments in the subsidiaries of the Bank, Central Cooperative Bank AD, Skopje, in the Republic of Macedonia, ZAO AKB "TatInvestBank", city of Kazan, republic Tatarstan, Russian federation and Management company "CCB Assets Management" EAD, Sofia, Republic of Bulgaria amounts to BGN 58,662 thousand bear a credit risk, the maximum exposure of which is 100% or BGN 58,662 thousand as an absolute amount.

Loans and advances to customers with carrying amount of BGN 1,799,648 thousand bear credit risk for the Bank. In order to determine the Bank's exposure to this risk, an analysis of each individual risk for the Bank, arising from each particular exposure is conducted by applying criteria for risk exposures assessment and classification in compliance with the banking legislation of the Republic of Bulgaria. According to these criteria and the conducted analysis, the maximum exposure to credit risk of the Bank is at the amount of BGN 1,507,617 thousand. For credit risk mitigation purposes, detailed procedures for analysis of the economic reasonableness of every project, types of collateral acceptable to the Bank, control over granted funds and the respective administration are applied in the lending process.

The Bank keeps ratio of total capital adequacy above the regulatory requirements, generally as a precaution against the risk from concentrations. The acceptance and control over the limits for credit risk restrains the concentrations of risk exposures by geographical regions, sectors, business segments and credit groups bearing common risk.

The Bank has adopted methodology for calculation of allowances for impairment of loans and advances to customers in compliance with the requirements of the banking legislation in the Republic of Bulgaria and the applicable accounting standards.

As of December 31, 2013 the allocated allowances for impairment loss of loans and advances to customers are at the amount of BGN 27,650 thousand.

**Liquidity risk**

Liquidity risk arises from the mismatch of the assets' and liabilities' maturity and the lack of sufficient funds the Bank to meet its obligations on its current financial liabilities, as well as to provide funding for the increase in financial assets and the potential claims on off-balance sheet commitments.

Adequate liquidity is achieved if the Bank is able to provide enough funds for the above purposes by increasing liabilities and transforming assets as soon as possible and at relatively low costs through potential sale of liquid assets or attraction of additional funds from cash, capital or currency markets. The preventive function in the liquidity risk management comprises maintaining of reasonable level of liquidity to avoid potential loss at unexpected sale of assets.

The Bank observes its responsibilities and limitations resulting from the Law on Credit Institutions and Ordinance No. 11 of the Bulgarian National Bank on liquidity management and supervision of banks. The special collective body for liquidity management in the Bank is the Assets and Liabilities Management Committee. It applies the adopted by the Bank policy on liquidity risk management.

Quantity measure of the liquidity risk according to the BNB regulations is the liquid assets coefficient being the ratio between the liquid assets (cash in hand and at accounts with the Central bank, unencumbered government securities of the Republic of Bulgaria, deposits at financial institutions with maturity up to 7 days) to the attracted funds by the Bank.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)****Liquidity risk (continued)**

Traditionally, the Bank maintains high volume of liquid assets – cash in hand and at BNB, which guarantees it to meet easily its liquid needs. As of December 31, 2013 their share is over 24% of the Bank's total assets. As additional instrument to provide high liquidity, the Bank uses placements with and advances to financial institutions. These comprise mostly deposits in first-class international and Bulgarian financial institutions with maturity within 7 days. As of December 31, 2013 such deposits represent approximately 8% of total assets. The government securities of the Republic of Bulgaria owned and not pledged by the Bank comprise over 1% of total assets. By maintaining above 33% of its assets in highly liquid assets the Bank is able to meet all payment needs on matured financial liabilities.

The allocation of the Bank's financial liabilities as of December 31, 2013 according to their time remaining to maturity is as follows:

	Up to 1 month	From 1 to 3 months	From 3 months to 1 year	From 1 to 5 years	Over 5 years	Total
<b>FINANCIAL LIABILITIES</b>						
Deposits from banks	8,454	7,671	-	-	-	16,125
Loans from banks	-	-	-	7,072	-	7,072
Amounts owned to other depositors	1,266,099	383,565	957,691	665,886	4,986	3,278,227
Other attracted funds	17	34	82	157	-	290
Issued bonds	-	-	-	-	69,897	69,897
Other liabilities	17,303	-	-	-	-	17,303
<b>TOTAL FINANCIAL LIABILITIES</b>	<b>1,291,873</b>	<b>391,270</b>	<b>957,773</b>	<b>673,115</b>	<b>74,883</b>	<b>3,388,914</b>

The financial liabilities of the Bank are mainly formed by attracted funds from other depositors – retail and corporate depositors. More than one third– 38% are with residual term within one month. According to the statistics, in the Republic of Bulgaria the customers prefer to sign a deposit agreement with one month term and its renegotiation for prolonged period of time. On account of this the one month deposits are practically a long-term and relatively permanent resource for the Bank.

The allocation of the Bank's financial liabilities as of December 31, 2012 according to their time remaining to maturity is as follows:

	Up to 1 month	From 1 to 3 months	From 3 months to 1 year	From 1 to 5 years	Over 5 years	Total
<b>FINANCIAL LIABILITIES</b>

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)****Market risk**

Market risk is the risk, at which it is possible that the changes in the market prices of the financial assets, the interest rates or the currency rates have an unfavorable effect on the result of the Bank activity. Market risk arises on opened exposures on interest, currency and capital products, as all of them are sensitive to general and specific market movements. Exposure to market risk is managed by the Bank in accordance with risk limits, stipulated by management.

**Interest rate risk**

Interest rate risk is the possibility of potential fluctuation of the net interest income or the net interest rate margin, due to changes in the general market interest rates. The Bank manages its interest rate risk through minimizing the risk of decrease of the net interest income in result of changes in the interest rates.

For measurement and evaluation the interest rate risk the Bank applies the method of the GAP analysis (analysis of mismatch/imbalance). By this analysis the sensitivity of the expected income and expenses toward the interest rate development is identified.

The method of the GAP analysis aims to determine the Bank position, in total and separately by financial assets and liabilities types, regarding expected changes in interest rates and the influence of this change on the net interest income. It helps the management of the assets and liabilities and is an instrument for assurance of sufficient and stable net interest rate profitability.

The mismatch of the Bank between the interest-bearing assets and liabilities as of December 31, 2013 is negative and amounts to BGN 863,856 thousand. GAP coefficient, as a sign of this imbalance, compared to the total earning assets of the Bank (interest-bearing assets, equity securities, derivatives and investments in subsidiaries) is minus 30.39%.

**34. FINANCIAL RISK MANAGEMENT (CONTINUED)****Interest rate risk (continued)**

The maintenance of negative imbalance exposes the Bank to risk of decrease of the net interest income when interest rates increase. The influence of the imbalance, reported as of December 31, 2013 on the net interest income, with forecast for 2% increase in interest rates in a period of one year is decrease of the net interest income by BGN 1,835 thousand (2011: BGN 1,690 thousand).

The mismatch of the Bank between the interest-bearing assets and liabilities as of December 31, 2012 is negative and amounts to BGN 785,812 thousand. GAP coefficient, as a sign of this imbalance, compared to the total earning assets of the Bank (interest-bearing assets, equity securities, derivatives and investments in subsidiaries) is minus 29.72%.

**Foreign currency risk**

Foreign currency risk is the risk for the Bank to realize loss as a result of fluctuations in the foreign exchange rates.

In the Republic of Bulgaria the rate of the Bulgarian lev to the Euro is fixed by the Currency Board Act. The Bank's long position in EUR does not bear risk for the Bank. The net currency position as of December 31, 2013 in financial instruments, denominated in other currencies, different from BGN or EUR is under 2% of the financial assets and does not bear a significant currency risk for the Bank.

**Price risk**

Price risk is related to changes in market prices of the financial assets and liabilities, for which the Bank can suffer a loss. The main threat for the Bank is the decrease of the market prices of its equity instruments for trading to lead to slump of the net profit. The Bank does not own material exposures in derivative instruments, based on equity instruments or indexes and therefore the carrying amount of the equity instruments and interest in mutual funds from the portfolio of financial assets held for trading – BGN 64,021 thousand (2012: BGN 65,050 thousand).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED 31 DECEMBER 2013

All amounts are in thousand Bulgarian Levs, unless otherwise stated

**35. INFORMATION REGARDING THE FAIR VALUE OF THE ASSETS AND LIABILITIES**

Fair value is defined as the amount for which an asset can be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Sufficient market experience, stability and liquidity do not currently exist for purchases and sales of loans and advances to customers and for some other assets and liabilities, for which published market information is not easily accessible. Accordingly, their fair values cannot be reliably determined. Management considers that their carrying amounts are the most valid and useful reporting amounts under these circumstances.

The fair value of the financial assets and liabilities, distributed in accordance with the hierarchy of the fair values as of December 31, 2013 and 2012 is as follows:

	Carrying amount	Level 1 – quoted market price	Level 2 – Techniques for assessment of observed market levels	Level 3 – Techniques for assessment – non-observed market levels	Fair value is not available
2013					
<b>ASSETS</b>					
Financial assets held for trading	131,833	115,729	13,097	3007	-

**36. RELATED PARTY TRANSACTIONS**

The Bank has conducted a number of transactions with related parties as it has granted loans, issued guarantees, attracted cash, realized repo deals and others. All deals are completed at common trade conditions, in the course of activity of the Bank and do not differ from the market conditions, as loans are granted and guarantees are issued only in the presence of sufficient collateral.
